THE SHARING BAG

Dear Families,

Children love to share special items from home with their classmates. This is a great way for students to get to know each other and practice life skills such as public speaking, active listening, and asking good questions. In fact, these are such important skills that they are part of the Speaking and Listening Common Core State Standards.

In order to increase learning that takes place during Show & Tell, students must have a presentation sheet filled before sharing their item.

What to share? Each week a new child will bring home the Sharing Bag. I will email a list of items to bring, there will be a choice of 4 to 5 things. Bring back the Sharing bag with an item inside for the following class. Every month there will be new themes. Due to the class size and limited classes a few students will need to share on the same day.

Thank you
Vicky Kranser
